

We're Hiring!

Program Manager: Board Certified Behavior Analyst (BCBA)

The Unumb Center for Neurodevelopment exists to make life better for individuals with autism and their families.

Why choose The Unumb Center?

- Team approach: on-going collaboration with Director of Clinical Services, our team of psychologists and behavior analysts, colleagues, and experts in the field
- Opportunities for advancement
- Work-life balance: set work schedule, paid time off, and 11 paid holidays
- Company-paid CEU's and additional onsite professional development
- Medical benefits: dental, vision, and short and long-term disability
- Weekly journal club: opportunity for peer review, case discussion, and article review with team of behavior analysts
- Full-time administrator for scheduling RBTs and RBT subs. RBTs complete a series of core competencies prior to being placed with clients

Requirements and responsibilities:

- Board Certification (BCBA/BCaBA)
- Administer assessments including but not limited to: VB MAPP, Essentials for Living, AFLS, ABLLS, and PDDBI
- Create and modify individualized treatment plans for each client on caseload
- Observe client during treatment. Compile and evaluate data on client responses and progress
- Conducts functional behavior assessments and analyses
- Create behavior plans for each client on caseload as needed, monitor implementation, and provide feedback as necessary
- Develop and supervise implementation of new programs, modify as needed
- Train, supervise, and provide feedback and coaching for all RBTs on principles of applied behavior analysis and client's program under the guidance of the Director of Clinical Services
- Lead caregiver trainings and therapist meetings
- Participate in trainings, professional development, and other meetings as needed
